## Common European Framework of Reference for Languages (CEFR)

Pre A1 A1 A2 B1 B2 C1 C2

**Titles with this logo include a reference to the CEFR levels, as a general guide to teachers**

The CEFR is a useful tool for anyone involved in English language learning, teaching and testing. It provides a common basis for describing levels of language ability in terms of what a learner 'can do' with the language in real-world tasks. Cambridge University Press is a leading member of English Profile, an EU-sponsored research project to describe the specific knowledge and skills in English that learners need to reach each CEFR level. Our course designers and authors make use of English Profile research to ensure courses are finely tuned to what learners at each level need.

# Offering flexible course packages with Cambridge One

Whether you're teaching remotely or in a classroom, our flexible digital tools will help you deliver engaging blended learning experiences with demonstrable results. They are underpinned by pedagogical insights and digital learning principles, and you'll have easy access to all these tools in one place on Cambridge One.

eBooks are mobile-friendly and offer the same great content as in the printed books. They can also be accessed offline with the desktop app.

Presentation Plus is the classroom presentation software, which makes presenting content easy. It can be used in class or downloaded for offline use.

Download the  
desktop app  
for offline use!

Collaboration Plus enables students to collaborate on projects remotely, while allowing teachers to set, track and assess students' work.\*

The Teacher resources area includes a variety of materials to assist with your teaching including class audio, videos, Teacher's Book and ready-made tests.

Practice Extra/Digital Workbook offers a full suite of grammar, vocabulary and practice of all four skills designed specifically for mobile and digital.

\*Collaboration Plus is not available with all courses. Refer to individual course pages to see which digital components they feature.

# Cambridge Life Competencies

A framework to develop skills for life

Hear from our experts

It is becoming increasingly important that learners leave education with a wide range of skills and experiences. For example, they will need to be able to communicate effectively, think creatively and analyse critically in order to keep up with the demands of our modern world.

We recognise that the engaging and collaborative nature of the language classroom is the perfect place to develop and embed these key qualities.

We've developed the **Cambridge Life Competencies Framework** to support learners at all stages of their learning journey, from very young pre-primary learners right through to adults in education and at work.

It maps out how learner behaviours typically found within each competency can change and develop as learners encounter new situations and circumstances in their lives, both within and beyond the classroom.

**More information**

Complete Beginner to Elementary 6 Levels 75 teaching hours, extendable to 150

★ Shortlisted British Council ELTons Awards | Innovation in Learner Resources

A1 A2

Which animals are nocturnal? What's the time around the world?

Take young learners on a journey of discovery to find out the answers. As they explore world photography and video documentaries, children improve their proficiency in English and other subjects.

Join a growing community of *Guess What!* teachers who have discovered its easy-to-teach approach and have seen students improve their communicative competencies through accessible grammar and language practice. Watch your learners improve with:

- Beautiful, real-world images that spark children's curiosity about the unit topics.
- CLIL lessons with video documentaries that improve proficiency across subjects as well as listening and critical thinking skills.
- Socially useful language chunks that give learners the tools to become effective speakers in and outside of school.

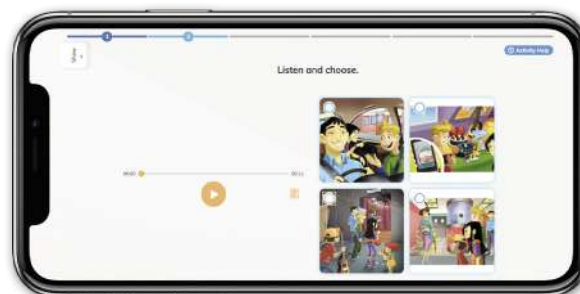

Adventure stories illustrate social values such as social responsibility and helping others.

**"The underlying aim in teaching young learners will always be to help them develop their personalities and equip them with the tools they need to be successful in life. Modern teaching materials need to help children explore and discover their place in the wider world."**

Susannah Reed, Author

Complete Beginner to Pre-Intermediate 7 Levels 200 teaching hours, extendable to 320

A1 A2 B1

### Official preparation for Pre A1 Starters, A1 Movers and A2 Flyers, A2 Key for Schools and B1 Preliminary for Schools

*Power Up* is a fast-paced course which offers learners all the support they need to meet the challenge of learning English while developing their confidence. Fun characters and their exciting adventures ensure that a motivating learning experience is guaranteed.

- *Power Up* provides both general English and comprehensive preparation for Cambridge English Qualifications and is jointly published with Cambridge Assessment English.
- Exam preparation is carefully integrated into *Power Up* as the Pupil's Book takes learners step-by-step through the language and skills needed for exam success; the Activity Book includes exam practice questions, while the Test Generator includes practice tests.
- Student-centred learning is a core focus of the course, with ongoing unit missions giving ample opportunity for collaborative missions.
- The course integrates the Cambridge Life Competencies Framework which maps thinking and learning skills to different life and learning stages.
- *Power Up* features a Home Booklet free with every Pupil's Book. A fun magazine-style book for children to revise at home what they have learnt in school.

### Remote teaching guide

- *How to teach remotely with Power Up*, available as a free download from the website, supports teachers working with the course and our digital resources in a virtual classroom.

*Cambridge Primary Path* is a course that combines an ESL approach to literacy with ELT support.

What makes the course unique is its powerful combination of three learning pillars – literacy, oracy and creativity, all supported by a strong inquiry-based learning foundation.

Through these pillars the course empowers children to reach their full potential.

Children become confident and effective communicators with inquiring minds, who can think laterally and make the most of life's opportunities in the 21st century.

With its research-informed, systematic approach to developing literacy, communication and creativity, *Cambridge Primary Path* helps students become confident, articulate and responsible global citizens with a love of learning.

For detailed information on the literacy, oracy and creativity strands and the Creative Journal, visit [cambridge.org/primarypath](https://cambridge.org/primarypath)

## Cambridge Science Skills

### COMPLETE BEGINNER TO PRE-INTERMEDIATE

The Science course for English teachers!

*Cambridge Science Skills* is a dynamic new skills course, written especially for English teachers teaching Science, through which students can practise their English, broaden their vocabulary, and improve their language skills.

*Cambridge Science Skills* takes learners on an exciting journey through the wonders of Science while ensuring topics are introduced at a manageable pace, so students can engage with, enjoy and fully assimilate new concepts.

- An enquiry-based approach to learning aids in the development of thinking skills.
- Student-centred learning ensures an active classroom experience and allows the children to work alone or collaboratively on projects, investigations and experiments.
- Characters, songs and even stories bring the content to life and help make the Science content as accessible as possible.
- Interesting facts and thought-provoking questions encourage learner autonomy.
- *Cambridge Science Skills* can be used as a stand-alone course or as supplementary material alongside Cambridge ELT textbooks.

In this unit, you will investigate the plants in your neighbourhood and make a field journal. To do this, you will:

- take photos or draw pictures of plants in your local area and identify their parts.
- classify these plants as flowering or non-flowering.
- describe the reproduction of flowering plants.
- gather all the information together in your field journal.

# Speaking matters

## Dedicated speaking lessons

Our research shows that students often feel not enough time is given to speaking skills in class, so 'Time to speak' is a lesson in every unit dedicated entirely to developing speaking skills. The lessons are based around immersive tasks that involve information sharing, problem solving, and decision making.

Research also suggests that students learn better in contexts where they feel confident, motivated, and able to experiment with language. *Evolve* helps teachers to create an environment where students feel supported and have space to develop their speaking skills freely.

## Designed for success

- 'Accuracy check' targets common errors and helps students to actively avoid errors in their spoken and written English.
- 'Insider English' focuses on the informal language frequently used in everyday situations, boosting students' confidence in the real world.
- The 'Pronunciation' sections maximize the time spent on aspects of speaking and listening that most commonly affect communication.
- 'Find it' smartphone activities allow students to bring live content into the lessons and personalize the learning experience.

## Interactive digital workbooks

- Digital workbooks offer a variety of mobile-friendly, interactive activities for every unit.
- All four skills are covered, including product speaking and writing tasks.
- Activities can be assigned and tracked by teachers, producing data at both individual and class level.
- Grammar videos and vocabulary presentations deliver additional content for reference or flipped lessons.

## Student eBooks with audio and video

- All of the Student's Book content in a digital format for mobile devices and laptop/desktop computers.
- Integrated audio plus 'real student' and 'expert speaker' videos make it easy to review content at the touch of a button.
- Note-taking and highlighting tools make it simple to personalize the eBooks and keep a record of notes and answers.

*Evolve Digital* is a flexible online course that combines independent learning with synchronous teacher-led lessons to get students speaking with confidence.

Expectations around online language courses have evolved rapidly in recent years and our insights-led approach to content development has helped us create a course that meets the changing needs in language schools and higher education institutions.

### Simplicity, flexibility, success

- The simplicity of the online course makes it easy for your adult and young adult students to learn autonomously, while saving you valuable time on marking and administrative tasks.
- The combination of online content, alongside ready-made teaching materials, gives you the flexibility to deliver your online English course in a variety of ways, using any kind of digital device.
- Our expertise in course design and testing ensures that language learning success is made visible through carefully integrated assessment and progress reporting.

# Because online teaching has evolved

## What makes Evolve Digital special?

- Studying online can sometimes feel very lonely, so we have included 'real teacher' content to help guide and motivate students through their independent learning. This includes videos at the start and end of each unit, and lots of friendly support throughout.
- Timely, relevant and helpful feedback is also key to keeping students motivated. This needs to go beyond marking answers right and wrong, so we've incorporated regular feedback that also explains the answers.
- The independent, online learning can be supported with synchronous lessons. Ready-made teaching materials and guidance will help you make the most of this valuable time with your students.
- Regardless of where and how they're studying, we know that students consider their ability to speak as evidence of their progress in English. The course therefore makes use of the latest speech recognition technology, building students' confidence to interact in real world scenarios.
- The repetitive nature of some online courses can lead to high drop-out rates and poor results. *Evolve Digital* keeps students motivated with plenty of variety in language input and practice activities, making the most of multimedia to sustain engagement and get the very best outcomes.

## Digital pedagogy you can trust

- The online course materials are expertly designed for independent, self-paced learning, covering all four skills and providing instruction and guidance as well as practice and production opportunities.
- Ready-made synchronous lessons include instructions for delivery online or in a physical classroom, so virtual lessons can be as successful as traditional ones.
- Online quizzes for each unit, as well as mid-term and end-of-course tests, help both students and their teachers measure progress and success.

**2 ON THE MOVE**

**GETTING STARTED**

Work with a partner to complete the quiz.

**Think you know about ELECTRIC CARS?**

Then put your knowledge to the test with our quiz!

- The first ever electric car was
  - the Roadster, built by Elon Musk's firm Tesla in California in 2008.
  - produced in Russia in the 1950's, but then converted into a petrol car.
  - created by an engineer from Scotland called Robert Anderson in 1832.
- More pollution is caused in the production of
  - electric vehicles (EVs).
  - fossil fuel vehicles.
- A few came into effect in Europe in 2019 requiring electric cars to be
  - quieter.
  - noisier.
- The first country in the world where more than 50% of cars were electric was
  - Norway.
  - New Zealand.
- Between 2014 and 2018, monthly sales of electric cars in the UK increased by
  - 100%.
  - 1000%.

**READING AND USE OF ENGLISH PART 2 TRAINING**

Complete gaps 1–4 with one word in each space. Use the clues below to help you.

**THE ELECTRIC EGG**

In 1942, reports began circulating (1) \_\_\_\_\_ a strange shiny little car that silently flashed around the streets of Paris. This turned out to be the invention of artist and engineer Paul Arzens, and it soon acquired a name, L'Œuf Électrique (The Electric Egg, on (2) \_\_\_\_\_ of its shape. Faced (3) \_\_\_\_\_ a scarcity of materials, Arzens' approach to the design of his car had been nothing (4) \_\_\_\_\_ of revolutionary. His solution was to (5) \_\_\_\_\_ away with the conventional shape of a car body and instead construct a lightweight oval frame of aluminium. This tapered to a blunt point at the rear, behind (6) \_\_\_\_\_ was the third wheel and motor. This ran on electricity rather than petrol, making the Egg much cleaner than most other vehicles of the day. Sadly, the Electric Egg never caught on, and Arzens' prototype was the (8) \_\_\_\_\_ one ever constructed. However, (7) \_\_\_\_\_ way should it be seen as a failure. Arzens demonstrated first (8) \_\_\_\_\_ foremost that a graceful non-polluting car could be built with minimal resources.

Now complete the other four gaps.

**VOCABULARY TRAVEL**

1 Work with a partner. Make a list of as many kinds of vehicle as you can, including ones that travel by air, by water and by land.

2 Put the following words and phrases into the most suitable transport categories in the Venn diagram. Use a dictionary if you have one.

truck (s) reverse (s) boat (s) give way (s) carriage (s) board (s) cabin (s) shuttle (s) congestion (s) wreck (s) overtake (s) commute (s) divert (s)

OK, so truck – is that connected with flying, driving or taking the train?

Taking the train – the truck means the rules the train goes on.

Yes, but you can also drive a car along a track, which is a rough road or path or a 'racing track' so, for me, it's driving and taking the train.

**Complete the travel announcements with a word from Exercise 2 in the correct form.**

- This region to inform you that the 10:43 train to Wrexham is cancelled due to engineering works being undertaken on the \_\_\_\_\_.
- All passengers wishing to continue onto London King Cross station should enter their way to the first free \_\_\_\_\_ of the train before we reach the next station.
- This is a passenger announcement for those travelling on EC8857 to Seattle. Please proceed to gate 14, where the aircraft is now ready for \_\_\_\_\_.
- Trains are available if you don't get off at the main terminal building, or the \_\_\_\_\_ has to the city centre, turn right.

### REAL WORLD

## BUYING A COFFEE AND A SNACK IN ... VIENNA

**1** Look at the photos (A–D) of cafés in Vienna. What do you think is special about the cafés in Vienna? Do people often go to cafés in your country?

**2** Read the text about coffee houses in Vienna. Are these statements true (T) or false (F)? Correct the false statements.

- The tradition of coffee houses is very old.
- You can spend a long time drinking coffee and reading the newspaper in a coffee house.
- You have to pay if you want a glass of water.
- The waiters want you to leave quite quickly.

**3** Read the reviews of some coffee houses in Vienna. Which café ...

- serves the customers quickly?
- looks nice from the outside?
- is expensive?
- serves large pieces of cake to the customers?

**YOU MUST VISIT ... a coffee house in Vienna**

Vienna is full of traditional coffee houses (or *cafés*) where you can enjoy a good cup of coffee, as well as delicious cakes, pastries and small snacks. Visiting one or two of these famous coffee houses is a must for every visitor to Vienna. Coffee houses first appeared in Vienna in the 17th century and they have remained popular because of their relaxed atmosphere. Friends can stay and chat for as long as they want, and it is completely normal for a customer to stay there alone for hours and read the newspaper. The waiter will always serve a glass of cold tap water with your coffee and, if you stay for a long time, they will bring you more water from time to time. The idea is that you are a guest who should feel welcome and you shouldn't feel that you have to leave quickly.

**So, which Viennese coffee house should you visit?**

**Café Vienna** ●●●●●  
**Customer review**  
 We never felt rushed here. The quality of the coffee was excellent and the portions of chocolate cake with whipped cream were generous. There's table service. The waitress was busy, but friendly and still smiling. Better than a big chain.

**Café 100** ●●●●●  
**Customer review**  
 Excellent coffee and fast service! They also have all sorts of snacks including gluten free, if you're hungry. Very, very friendly staff. Good location in the Old City. Not cheap, but then if you want great food you don't mind paying a bit extra! Well worth a visit.

**Café Schokolade** ●●●●●  
**Customer review**  
 Every tourist comes here to take photos and eat. The building is lovely, outside and inside, and there's a nice atmosphere, but the food and cakes here are nothing special. The level of service is not up to standard.

### UPPER INTERMEDIATE TO ADVANCED

First and Advanced: 70 teaching hours,  
extendable to 90

Proficiency: 90 teaching hours, extendable  
to 120

*Objective* courses provide the perfect solution  
for the demands of the modern classroom; short  
units emphasising progress, motivating students  
and getting results. The *Objective* series provides  
solid language development, lively class discussion  
and thorough training in exam skills.

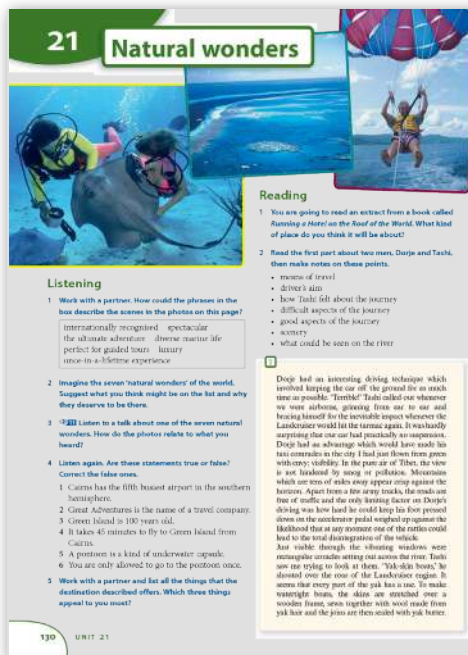

- Based on research into real exam candidates' Answers from the Cambridge Learner Corpus, exercises target areas that commonly cause difficulty.
- Exam preparation in separate 'Exam folders' makes *Objective* suitable for classes with general English students.

## Trainers

The *Trainer* books contain six full practice tests, expert guidance, and exam tips. The first two tests are fully guided, with step-by-step advice on tackling each paper. Answer keys provide clear explanations, including model answers for the Writing papers.

- Extra practice activities, informed by the Cambridge Learner Corpus, focus on areas where students at each level typically need most help and train them to avoid common mistakes.
- 'For Schools' *Trainers* offer full teacher's notes in the 'with Answers' editions.

## Business Benchmark Second edition

Guy Brook-Hart and Norman Whitby

INTERMEDIATE TO ADVANCED

80 teaching hours, extendable to 120

This second edition of the popular *Business Benchmark* course is official preparation for the Business exams. A fast-paced, topic-based course with comprehensive coverage of language and skills for business, it motivates and engages both professionals and students preparing for working life.

The fully-referenced Word list provides definitions for core and challenging vocabulary from the Student's Book and the pocket-sized Personal Study Book contains extra activities, including a Writing supplement.

- Authentic listening and reading materials, including interviews with business people, provide models for up-to-date business language.
- Grammar and vocabulary exercises, informed by past exam scripts from the Cambridge Learner Corpus, train students to avoid common mistakes.
- 'Grammar workshops' practise grammar in relevant business contexts.
- 'Exam skills' and 'Exam practice' sections take students step by step through a complete test, building knowledge and confidence to maximise their score.
